

Living Fuel's Super Essentials™ Omega 3 EDA™

Living Fuel's Super Essentials™ Omega 3 EDA™ combines the ultimate in antioxidants and essential fatty acids with a full-spectrum Vitamin E (tocotrienols and tocopherols), cold water fish-derived Vitamins D & A and Astaxanthin. Beyond clean air and fresh water, Super Essentials™ Omega is the next, most important step toward Super Health – the single most important supplement you can take! Super Essentials™ Omega contains the finest natural sardine and anchovy oils that are ultra-purified using a proprietary flash molecular distillation process. This ensures the oils are free of measurable levels of impurities including PCBs, mercury, other heavy metals or oxidized contaminants. **Full-spectrum Vitamin E**, including Tocotrienols and Tocopherols from rice bran oil, is a powerful antioxidant with numerous well-known health benefits. In addition to the general antioxidant benefits, Super Essentials™ Omega contains significant amounts of all eight fractions of Vitamin E to protect against rancidity in the bottle, but more importantly, to protect the delicate polyunsaturated fats from lipid peroxidation in the body. **Vitamin D**, among its myriad of well-documented health benefits, helps to maintain normal blood levels of calcium and phosphorus which helps to sustain strong bones. **Vitamin A** is a powerful antioxidant that promotes growth, healthy skin and good vision. **Astaxanthin**, a carotenoid, is an extremely powerful naturally-occurring fat-soluble antioxidant. **Omega 3 EPA/DHA** is critical to human health and longevity and promotes healthy cellular function. **GLA**, an Omega 6 oil, is included to balance the Omega 3 and Omega 6 pathways for the production of beneficial prostaglandins. The ingredients in Super Essentials™ Omega are rigorously tested to guarantee unparalleled levels of purity. **Super Essentials™ Omega DOES NOT CONTAIN** wheat, gluten, rye, oats, corn, yeast, egg, sugar, wax, preservatives, casein or any other milk derivatives. **KEEP OUT OF REACH OF CHILDREN.**

DIRECTIONS

For optimal results, **take one softgel per 25 pounds of body weight per day** up to a total of 12 or more as directed by a health care professional. For example, 200 lbs = 8 softgels per day; 125 pounds = 5 softgels per day. Adults take a minimum of four softgels daily. *Essential for pregnant and nursing women as directed by a health care professional.*
